

Cisco Aironet 3600 Series Access Point

Cisco Aironet® 3600i Access Point

- Sleek design with internal antennas
- · Ideal for office environments

Cisco Aironet 3600e Access Point

- Rugged metal housing and extended operating temperature
- Ideal for factories, warehouses, and other indoor industrial environments
- · Versatile RF coverage with external antennas
- UL 2043 plenum-rated for above-ceiling installation options or suspended from drop ceilings
- Classify over 20 different types of interference, including non-Wi-Fi interference within 5 to 30 seconds
- Automatic remedial action and less manual intervention

Investment Protection with Modular Architecture Design

- Flexible add-on Wireless Security & Spectrum Intelligence Module
- IEEE 802.11ac Wave 1 Module (Available Q1CY13)
- Cisco 3G Small Cell Module (Available 2HCY13)

Troubleshooting Forensics for Faster Interference Resolution and Proactive Action

- Historic interference information for back-intime analysis and faster problem solving
- 24/7 monitoring with remote access reduces travel and speeds resolution
- Cisco[®] Spectrum Expert Connect provides real-time, raw spectrum data to help with difficult-to-diagnose interference problems
- The Air Quality Index in Cisco CleanAir[™] technology provides a snapshot of network performance and the impact of interference

Robust Security and Policy Enforcement

- Industry's first access point with non-Wi-Fi detection for off-channel rogues
- Supports rogue access point detection and detection of denial-of-service attacks
- Management frame protection detects malicious users and alerts network administrators
- Set policies to prohibit devices that interfere with the Wi-Fi network or jeopardize network security

Secure Interoperability

• Controller-based deployment only

Delivering up to three times more coverage versus competition for tablets, smartphones, and highperformance laptops, the industry's only 4x4 MIMO, three-spatial-stream access point delivers missioncritical reliability. Current solutions struggle to scale to meet demands on the wireless networks from the influx of diverse mobile devices and mobile applications. The new Cisco Aironet® 3600 Series sustains reliable connections at higher speeds further from the access point than competing solutions, resulting in up to three times more availability of 450 Mbps rates, and optimizing the performance of more mobile devices. Cisco® Aironet 3600 Series is an innovative, modular platform that offers unparalleled investment protection with future module expansion to support incoming 802.11ac clients with 870 Mbps rates, or offer comprehensive security and spectrum monitoring and control.

Cisco Aironet 3600 Series includes Cisco ClientLink 2.0 to boost performance and range for clients and includes Cisco CleanAir spectrum intelligence for a self-healing, self-optimizing network.

RF Excellence

Building on the Cisco Aironet heritage of RF excellence, the 3600 Series is a flagship access point, delivering industry-leading performance for secure and reliable <u>wireless</u> connections.

Enterprise-class silicon and optimized radios deliver a robust mobility experience which includes:

- 802.11n with 4x4 multiple-input multiple-output (MIMO) technology with three spatial streams, which sustains 450-Mbps rates over a greater range for more capacity and reliability than competing access points.
- Cisco ClientLink 2.0 technology to improve downlink performance to all mobile devices including one-, two-, and three-spatial-stream devices on 802.11n while improving battery life on mobile devices such as smartphones and tablets.
- Cisco CleanAir[™] technology, which provides proactive, high-speed spectrum intelligence to combat performance problems due to wireless interference.
- Modular architecture design, enabling flexible add-on options in the form of a Wireless Security &
 Spectrum Intelligence Module, a Cisco 3G Small Cell Module or an IEEE 802.11ac Module that is tightly
 integrated with the Cisco Aironet 3600 Series Access Point platform, and is completely field-upgradable.
- MIMO equalization optimized uplink performance and reliability by minimizing the impact of signal fade.

All of these features help ensure the best possible end-user experience on the wireless network.

Cisco also offers the industry's broadest selection of <u>802.11n antennas</u> delivering optimal coverage for a variety of deployment scenarios.

Scalability

The Cisco Aironet 3600 Series is a component of the Cisco Unified Wireless Network, which can scale to up to 18,000 access points with full Layer 3 mobility across central or remote locations on the enterprise campus, in branch offices, and at remote sites. The Cisco Unified Wireless Network is the industry's most flexible, resilient, and scalable architecture, delivering secure access to mobility services and applications and offering the lowest total cost of ownership and investment protection by integrating seamlessly with the existing wired network.

Product Specifications

Table 1 lists the product specifications for Cisco Aironet 3600 Series Access Points.

 Table 1.
 Product Specifications for Cisco Aironet 3600 Series Access Points

Item	Specification
Part Numbers	The Cisco Aironet 3600i Access Point: Indoor environments, with internal antennas
	AIR-CAP3602I-x-K9 - Dual-band controller-based 802.11a/g/n
	AIR-CAP3602I-xK910 - Eco-pack (dual-band 802.11a/g/n) 10 quantity access points
	The Cisco Aironet 3600e Access Point: Indoor, challenging environments, with external antennas
	AIR-CAP3602E-x-K9 - Dual-band controller-based 802.11a/g/n
	AIR-CAP3602E-xK910 - Eco-pack (dual-band 802.11a/g/n) 10 quantity access points
	Cisco SMARTnet® Service for the Cisco Aironet 3600i Access Point with internal antennas CON-SNT-CAP362lx - SMARTnet 8x5xNBD 3600i access point (dual-band 802.11 a/g/n)
	• Qty(10) CON-SNT-CAP362Ix - SMARTnet 8x5xNBD 10 quantity eco-pack 3600i access point (dual-band 802.11a/g/n)
	Cisco SMARTnet Service for the Cisco Aironet 3600e Access Point with external antennas
	• CON-SNT-CAP3602x - SMARTnet 8x5xNBD 3600e access point (dual-band 802.11 a/g/n)
	• Qty(10) CON-SNT-CAP3602x - SMARTnet 8x5xNBD 10 quantity eco-pack 3600e access point (dual-band 802.11a/g/n)

¹ MCS Index: The Modulation and Coding Scheme (MCS) index determines the number of spatial streams, the modulation, the coding rate, and data rate values.
² GI: A guard interval (GI) between symbols helps receivers overcome the effects of multipath delays.

Item	Specification
External Antenna	Certified for use with antenna gains up to 6 dBi (2.4 GHz and 5 GHz)
(Sold Separately)	Cisco offers the industry's broadest selection of <u>802.11n antennas</u> delivering optimal coverage for a variety of deployment scenarios
Interfaces	 10/100/1000BASE-T autosensing (RJ-45) Management console port (RJ-45)
Indicators	Status LED indicates boot loader status, association status, operating status, boot loader warnings, boot loader errors
Dimensions (W x L x H)	• Access point (without mounting bracket): 8.7 x 8.7 x 2.11 in. (22.1 x 22.1 x 5.4 cm)
Weight	• 2.5 lbs (1.13 kg)
Environmental	Cisco Aironet 3600i Nonoperating (storage) temperature: -22 to 158♥ (-30 to 70℃) Nonoperating (storage) Altitude Test -25˚C, 15,000 ft. Operating temperature: 32 to 104♥ (0 to 40℃) Operating humidity: 10 to 90% percent (noncondensing) Operating Altitude Test -40˚C, 9843 ft. Cisco Aironet 3600e Nonoperating (storage) temperature: -22 to 158♥ (-30 to 70℃) Nonoperating (storage) Altitude Test - 25˚C, 15,000 ft. Operating temperature: -4 to 131♥ (-20 to 55℃) Operating humidity: 10 to 90 percent (noncondensing) Operating Altitude Test -40˚C, 9843 ft.
System Memory	 256-MB DRAM 32-MB flash
Input Power Requirements	 AP3600: 44 to 57 VDC Power Supply and Power Injector: 100 to 240 VAC; 50 to 60 Hz
Powering Options	AP3600 without add-on module • 802.3af Ethernet • Cisco AP3600 Power Injectors (AIR-PWRINJ4=) • Cisco AP3600 Local Power Supply (AIR-PWR-B=) AP3600 with an add-on module • Enhanced Power over Ethernet (PoE), 802.3at PoE+ • Cisco AP3600 Power Injectors (AIR-PWRINJ4=) • Cisco AP3600 Local Power Supply (AIR-PWR-B=)
Power Draw	AP3600: 12.95 W Note: When deployed using a PoE specification, the power drawn from the power sourcing equipment will be higher by some amount dependent on the length of the interconnecting cable. This additional power may be as high as 2.45W, bringing the total system power draw (access point + cabling) to 15.4W with PoE 802.3af as an example.
Warranty	Limited Lifetime Hardware Warranty
Compliance Standards	 UL 60950-1 CAN/CSA-C22.2 No. 60950-1 UL 2043 IEC 60950-1 EN 60950-1 EN 50155 Radio approvals: FCC Part 15.247, 15.407 RSS-210 (Canada) EN 300.328, EN 301.893 (Europe) ARIB-STD 66 (Japan) ARIB-STD T71 (Japan) EMI and susceptibility (Class B) FCC Part 15.107 and 15.109 ICES-003 (Canada) VCCI (Japan)

Limited Lifetime Hardware Warranty

The Cisco Aironet 3600 Series Access Point comes with a Limited Lifetime Warranty that provides full warranty coverage of the hardware for as long as the original end user continues to own or use the product. The warranty includes 10-day advance hardware replacement and ensures that software media is defect-free for 90 days. For more details, visit: http://www.cisco.com/go/warranty.

Cisco Wireless LAN Services

Realize the full business value of your technology investments faster with intelligent, customized services from Cisco and our partners. Backed by deep networking expertise and a broad ecosystem of partners, Cisco Wireless LAN Services enable you to deploy a sound, scalable mobility network that enables rich media collaboration while improving the operational efficiency gained from a converged wired and wireless network infrastructure based on the Cisco Unified Wireless Network. Together with partners, we offer expert plan, build, and run services to accelerate your transition to advanced mobility services while continuously optimizing the performance, reliability, and security of that architecture after it is deployed. For more details, visit: http://www.cisco.com/go/wirelesslanservices.

For More Information

For more information about the Cisco Aironet 3600 Series, visit http://www.cisco.com/go/wireless or contact your local account representative.
